

ADAMS AND REESE LLP

Out in front.

A STEP AHEAD

Adams and Reese blends the wisdom of more than half a century of comprehensive legal and practical experience with the energy and vitality of an ambitious newcomer. We have served clients that range from international corporations to startup enterprises, and to state, local and municipal agencies. We have built solid relationships founded on our commitment to the goals and interests of each and every client.

AT THE EDGE

Success today starts with understanding tomorrow. It calls for innovative leadership strategies, not just reactive solutions, and that's how we approach our practice. Our clients need answers and actions that will be immediately effective and advantageous cumulatively.

They want answers and actions that recognize global trends and marketplace evolution. And they've come to know they can depend on us to see both the big picture and the small print.

The geographic reach of our legal services extends far and wide. We're able to provide legal support locally, nationally, and internationally from offices in Baton Rouge, Birmingham, Houston, Jackson, Memphis, Mobile, Nashville, New Orleans and Washington, D.C.

As far as our clients and their businesses reach, we reach with them, providing legal counsel and identifying resources to meet their needs.

WELL-PRACTICED

With attorneys and advisors strategically located throughout the South Central United States, Adams and Reese has a diverse wealth of knowledge and experience. We address challenging issues with a comprehensive and effective legal perspective.

In addition, many of our attorneys have years of on-the-job professional experience within the industries we serve. They offer unique insight and valuable guidance in counseling clients and legal teams on cases related to these industries.

Our culture is defined by the focus and commitment of our attorneys and our staff. It is this dedication that our clients and peers have come to admire and respect.

NO BOUNDARIES

PRIMARY PRACTICE AREAS

A COMMITMENT TO COMMUNITY

With success comes a responsibility to work toward bettering our communities. We take this responsibility to heart and have committed thousands of hours and untold dollars to assist those less fortunate.

To facilitate our community-service commitment, we developed a volunteer program called HUGS (*Hope, Understanding, Giving and Support*), as well as a pro bono program known as CA&RE (*Caring Adams and Reese Employees*). These programs and other community projects have resulted in our receiving many “Pro Bono Firm of the Year” awards and the prestigious “Excellence in Corporate Volunteerism Award” by the Points of Light Foundation.

A COMMITMENT TO DIVERSITY

Among the men and women who constitute Adams and Reese, there is diversity in nationality, language, religious belief, race, gender and personality. Our appreciation of the value of diversity defines our approach to law, as much as it defines our collective attitude.

We believe in taking full advantage of our different backgrounds, experiences and perspectives to provide even more possibilities in delivering client services while enriching the lives of our employees and the communities in which we work and live.

Adams and Reese is proud to have minority partners sharing leadership positions throughout the firm and serving in leadership roles within businesses, trade organizations, and our communities.
